Thirty years of the best metal-rock albums

By: Magdalena Długotłęcka

IN the last two months of 2021 year, have passed 30 years since release the three crucial metal-rock albums. These are: *Metallica - „Metallica”* (The Black Album), *Nirvana - „Nevermind”* and *Pearl Jam - „Ten”*. They're very interesting albums and I think it's worth to take a closer look at them.

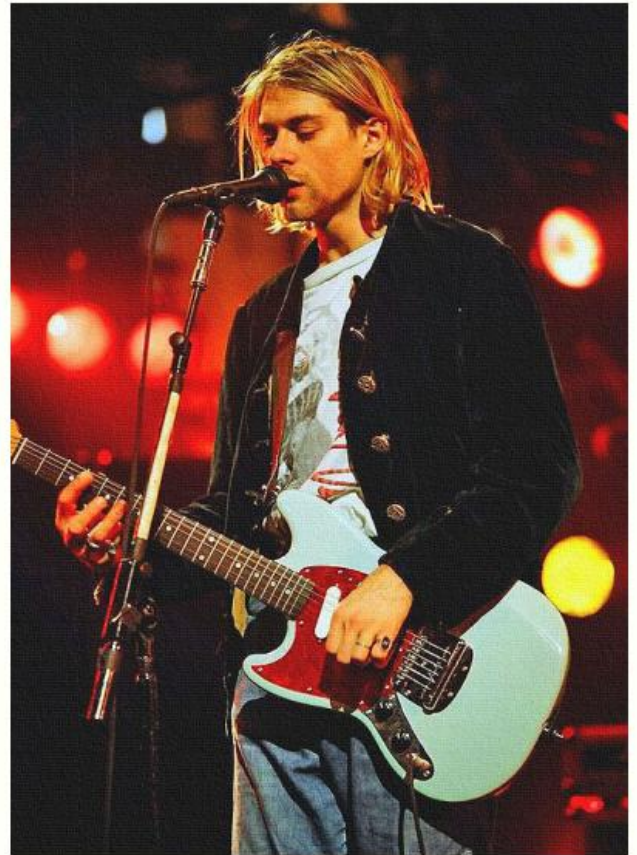

The most popular of these albums is Metallica's Black Album, released on August 12, 1991. This album was a huge success. It obtained the status of a diamond plate in the United States.

IN THIS ISSUE

THIRTY YEARS OF THE BEST METAL AND ROCK ALBUMS!

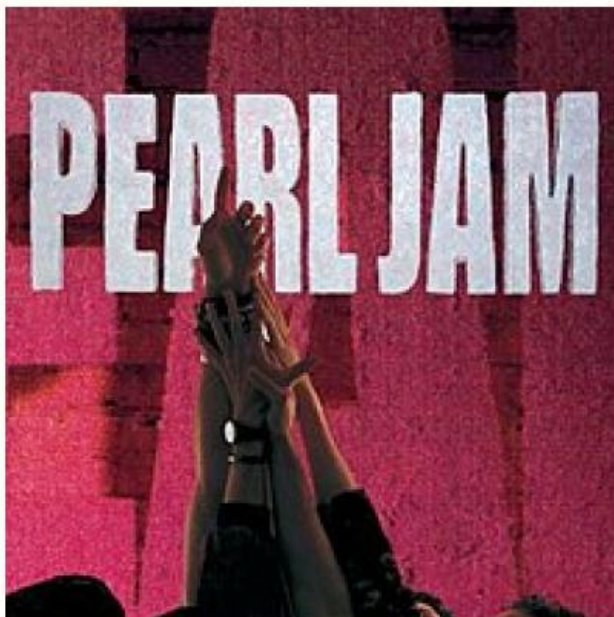

This album is very different from the previous ones. It's so calmer. One of the songs on this album is „Enter Sandman” - one of the most popular metal songs in history. On the occasion of the 30th anniversary of the album's release, on September 10th, a special reedition of The Black Album had its premiere.

The second album is Nirvana's „*Nevermind*“. Nirvana is so popular these days - I'm not surprised because I love them too! This album was released on September 24, 1991. „*Nevermind*“ has sold in 26 million copies, of which 10 million have been sold in the United States. Rolling Stone magazine placed it at 17th place in the top 500 music albums of all the time. The most popular song of this album is „*Smells like teen spirit*“. This song won the Single of the Year title. Because the band began to be identified only with this song, the singer (Kurt Cobain) stopped playing it during concerts.

[Kurt Cobain and Nirvana — Kurt Cobain - December 13, 1993 - Seattle, WA... tumblr.com](https://www.tumblr.com/kurtcobain)

[Ten \(álbum de Pearl Jam\) – Wikipédia, a enciclopédia livre \(wikipedia.org\)](https://pl.wikipedia.org/wiki/Ten_(album_Pearl_Jam))

The last of albums is Pearl Jam's „*Ten*“, released on August 27, 1991. This is the first Pearl Jam's album. In Poland, the album was certified a gold record. The most popular songs at this album are „*Alive*“ and „*Even Flow*“. „*Ten*“ is so much appreciated in the grunge and rock community. As you can see, 1991 was full of excellent records. Of course, there were more than three unique albums - this list is subjective. Still I hope that you enjoy my article.

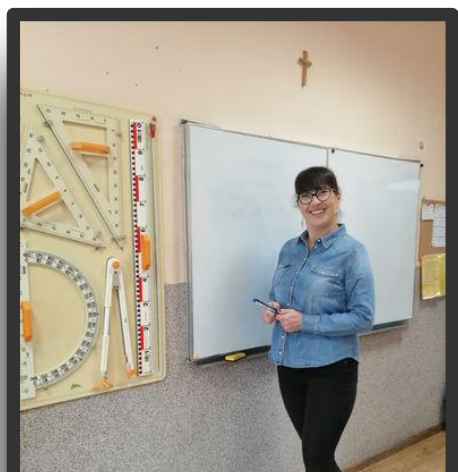

DID YOU KNOW?

The Black Album in numbers

IN THE UNITED STATES, IT SOLD IN 16,000,000 COPIES
ALSO, IT SOLD IN 598,000 COPIES IN ITS FIRST WEEK
THIS ALBUM WAS RANKED NUMBER 235 ON ROLLING STONE'S THE 500
GREATEST ALBUMS OF ALL TIME LIST.

THE TEACHER'S DAY

- Maths, physics and chemistry teachers

The job of a maths, physics and chemistry teacher is not easy at all. You have to remember formulas, equations, tasks. You need a good memory for that. Our teachers are like that. They are persistent in their work, brave and unbending.

- Polish and History teachers

The work of a Polish or history teacher is also an exhausting task that requires a great deal of work and effort. Working with students is difficult and demanding due to the diversity of the Polish language.

- German and English teachers

English and German are the most important languages in the world. That is why our school is lucky to have such wonderful teachers. Our mentors are characterized by persistence, great knowledge and, above all, kindness. All these makes learning these languages at our school a pure pleasure.

- Music and art teachers

Music and art are rather loose subjects, but still important, as they educate our souls. We have wonderful music and art teachers, who help us choose the path we want to follow.

- Biology and geography teachers

Biology and geography are the two subjects that help us better understand the world around us.

- P.E. teachers

Physical education is a subject by which we develop our physical skills. Especially this subject is needed after distance learning.

- IT teachers

Computer science is a subject that nowadays, where technology is constantly moving forward, cannot be dispensed with.

- Religion teachers

Religion is an object that helps us understand the path of faith.

On the Teacher's Day, we wish our educators to further develop our skills.

With all our hearts

THANK YOU

Today's topic is the Teacher's Day. It is on Thursday, October 14th, so don't forget to surprise your teacher! Here is something that can help:

Thank you my teacher, for reaching deep in me to find all I can be, before I can see it myself. You never gave up on me. I have the future because of you.

<https://liblink.pl/8f4PpYt5Rp>

We need to say 'thank you' to the teachers for their hard work and for taking care of us.

Do you already know what you are going to do for the teachers?

And I would like to personally thank my teacher, Mrs Beata Soroko.

My likes

Hi, I'm Robert and I'm going to tell you about my likes.

<https://liblink.pl/f3L2g3tYqO>

So the first of my likes is English. It is a primary language after all. Most people from around the world know English. That means you can communicate with a tone of people not knowing their national language. I noticed it as a child and started learning English myself and by the time I was in school, I knew most of the things that were in English classes. I don't remember how I started understanding English but I think it was by watching English films with Polish subtitles. And boom! suddenly I started to understand English without Polish subtitles.

The second of my likes is IT. I like computers. It is fascinating what a human can do with computers for example: we can make games, we can communicate with other people online, we can make art, we can learn something. It's a world of opportunities in a one device and there are tons of computers on this world. I want to learn everything about computers I want master everything there is in computers.

And that's all from me. Bye! Robert

BOMBING NEWS

Musical talent from Bytom

Author: Paulina Gawliczek

photo: voice.tvp.pl

Mariusz Świątczak, a resident of Bytom, performed in the twelfth edition of ‘The Voice of Poland’ program. The jury liked his performance very much and he moved to the next stage.

Singing is his passion.

He began to sing in the church choir in Szombierki. „Chorus Sancto Gregorius”. He currently sings in a rock band.

He works as a mechanic at the airport on a daily basis.

If you haven’t watched the program, I recommend watching his performance on the website voice.tvp.pl
